

# AdvanTech 517

## DESCRIPTION AND GENERAL PROPERTIES

- **Material** Natural latex, neoprene and nitrile
- **Length (cm)** 36
- **Thickness (mm)** 0.50
- **Wrist** Straight cuff
- **Colour/Color** Non pigmented
- **Interior finish** Chlorinated
- **Exterior finish** Embossed texture
- **Size / EAN** 6 7 8 9 10
- **Packaging** 1 pair/bag - 12 pairs/bag - 72 pairs/carton
- **Complementary information** Guaranteed without silicone  
Class 100 (ISO 5) Compatible

## PERFORMANCE RESULTS

Certification category 3

CE 0334

## SPECIFIC ADVANTAGES

- Excellent resistance and strong chemical protection against a great number of chemical products: exclusive Trionic formula made from a mix of natural latex, neoprene and nitrile
- Manufacturing process ensuring the control of a very low level of contaminants: particulate content, non-volatile residues, extractables => Washed, controlled and packaged in an ISO 5 room / Particle rate measured compatible with the needs of an ISO 5 room
- Wide cuff for double-gloving
- Previous name: Trionic 517

## MAIN FIELDS OF USE

### Mapa Advantech :

- Controlled Environment: Product and user protection

## INSTRUCTIONS FOR USE

### Instructions for use

- It is recommended to check that the gloves are suitable for the intended use, because the conditions of use at workplace may differ from the "CE"-type tests.
- It is not recommended for persons sensitized to natural latex, dithiocarbamates and thiazoles to use these gloves.
- Unpack and put on the gloves according to the gowning procedure in the workplace.
- Inspect the gloves for any cracks and flaws before use.
- Put the gloves on dry, clean hands. Place the fingers into the glove. Gently pull the glove over the hand and make final adjustments only when both hands are gloved.
- Do not use the gloves in contact with a chemical for a duration in excess of the measured breakthrough time. Refer to the website [www.mapa-pro.com](http://www.mapa-pro.com) or contact the Technical Customer Service - MAPA PROFESSIONNEL (stc.mapaspontex@mapaspontex.fr) in order to know this breakthrough time. Use 2 pairs alternatively when in long duration contact with a solvent.
- Turn the cuff end down in order to prevent a hazardous chemical from dripping onto the arm.
- Do not touch the external side of the gloves when taking them off.

### Storage conditions

- Store the gloves in their original packaging protected from direct sunlight, far from heat sources or electric equipment.

## LEGISLATION

This product is not classified hazardous according to the regulation (EC) n°1272/2008 of the European Parliament and of the Council. This product does not contain more than 0.1 % of substance of very high concern (SVHC) or any substance included in the annex XVII of the regulation n° 1907/2006 of the European Parliament and of the Council (REACH).

- **UE type certificate or CE type examination certificate** : 0075/014/162/09/18/1938
- **Issued by the notified body nr** : 0075 - C.T.C - 4 rue Hermann FRENKEL - 69367 LYON Cedex 07
