

PRODUCT NUMBER: 740
Dermatril 740

With 740 Dermatril® KCL succeeded in developing a disposable, chemical resistant protective glove in accordance with EN374. Besides the high protection against chemical and bacteriological contamination, the Dermatril® also displays very good mechanical durability in comparison to conventional disposable gloves. In addition to this, the glove is also approved for food handling and processing according to EU 1935/2004. All Dermatril® disposable gloves are individually marked on the inside, so protection is never compromised.

Overview

Reference Number
740

Product Type
Gloves

Range
Chemical Protection

Line
Disposable

Brand
KCL by Honeywell

Brand formerly known as
KCL

Industry

- Chemical Industries
- Food Industries
- Industrial Cleaning
- Laboratory
- Medical and Pharmaceutical

Product Use

- laboratory and operations
- chemical industry
- food industry
- electronic industry
- computer industry
- cleaning and maintenance
- protection of products

Features & Benefits

Feature
 AQL < 0.65 free from natural latex resistant against a multitude of cytostatic drugs virus-resistant according to ASTM 1671:2007 glove surface free from silicone (lacquer indifference, test method automotive industry) suitable for food handling according to EU 1935/2004 good discharge capacity dispenser box available for hygienic removal of individual gloves This glove meets the requirements of EN 455 This glove is a medical product according to guideline 93/42/EWG.

Benefit
 disposable protective glove excellent sense of touch extremely comfortable increased tear resistance roughened fingertips for improved grip good chemical resistance snug fit

Technical Description

Description

Single-use powder-free nitrile glove. Rolled edge. Roughened fingertips.
